Recent advances in the construction of isoindolo[2,1-a]indol/indolin-6-ones via C-C cross-coupling reactions

The review summarizes the most recent synthetic methodologies for assembly of the 6H-isoindolo[2,1-a]indol-6-one and 10b,11-dihydro-6H-isoindolo[2,1-

a]indol-6-one scaffolds, the structural motifs present in many natural and biologically interesting compounds. ...
